

Experience with a modular Student Experience Survey and the Data Vis used to display the outcome.

Malcolm Rees

Manager, Student Survey and Evaluation Unit

Massey University

m.t.rees@massey.ac.nz

Background

All Massey large institution-wide surveys and evaluations

- SES
- PREQ
- GDS
- Course evaluations
- Teaching evaluations
- Other adhoc surveys

2003

SES
(services)

CEQ
(programmes)

2007

2013

SES
(Services and T&L)

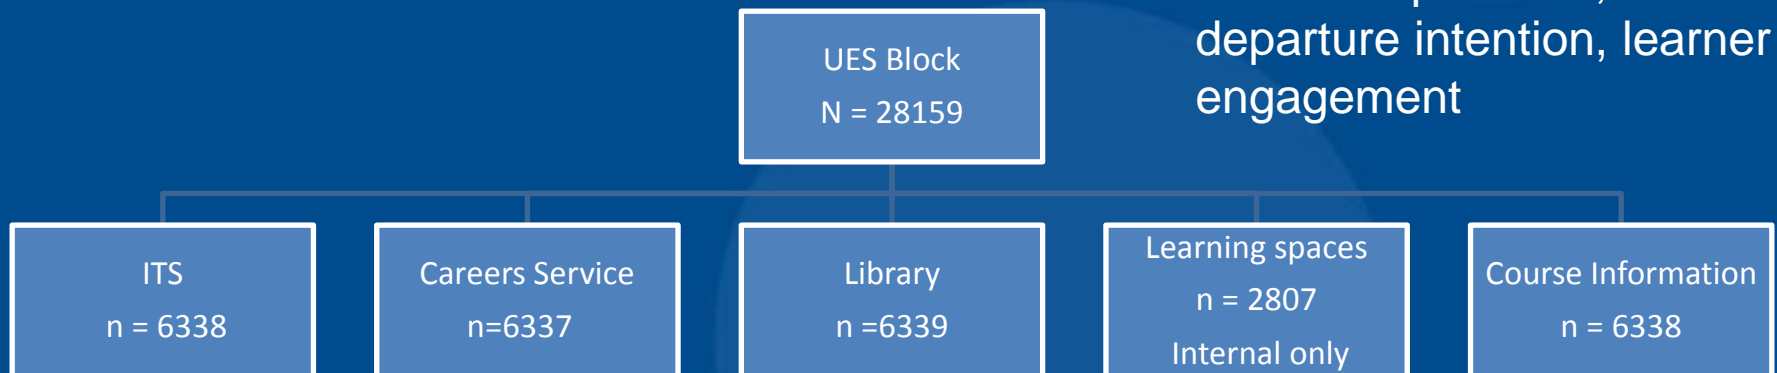

Course evaluation
(Online)

2013 SES

- Six blocks of questions
- 204 individual survey items
- Both qualitative and quantitative data

UES block includes:

- Commencement activities
- Services (usage & rating)
- Communication
- Teaching & skills developed
- Overall experience, departure intention, learner engagement

Sub-blocks since 2013

2013	2014	2015	2016
Library	PREQ	PREQ	PREQ
ITS	Employability	Employability	Recreation Centres
Spaces	Disability	Disability	Smoke-free policy
Paper Information	Website	International	
Careers Service	Course evaluations		

Multi – purposed SES

- Significant survey framework that links with most corners of the University
- Accommodate diverse needs for a variety of student data
- Survey items – MUST HAVE diagnostic utility
- Engage with staff to collect information + then engage in improvement activities
- We only administer one institution-wide student survey annually (plus course evaluations)
- Minimise survey fatigue
- Backed up by Survey Reference Group

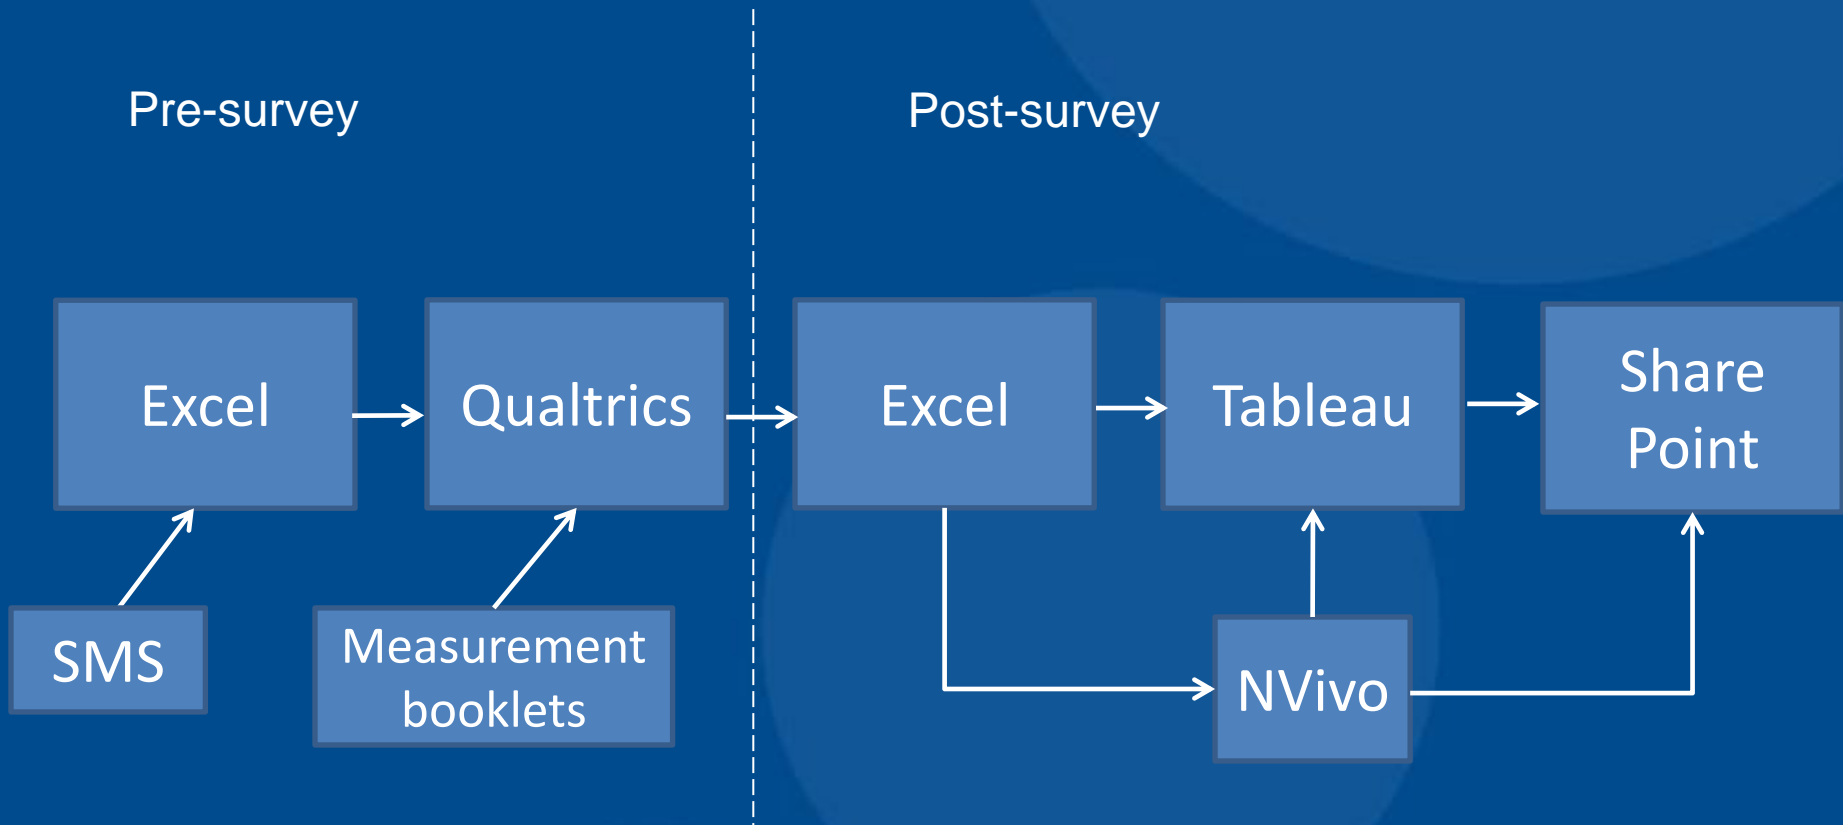

Survey Design

- Keep our question design simple
 - Ratings (how good)
 - Frequency (how often)
 - Extent (how much)
 - Qualitative close – out
- Population survey administered every year
- We embed all the variables from the SMS in the file and use these as slicers later.
- Quantitative & Qualitative responses

Modular approach

- Took some time to get going
- Needed an owner
- Accommodating individuals is difficult
- Works well with our large student popn
- Building the blocks is challenging
- Requires us to have a broad understanding of the way the University is operating
- No discernible decline in response by using blocks

Data Journey

Key business challenges. Why Data Vis?

- Demands for adhoc reporting at granular level
- Demands for volumes of standardised reporting at qualification level
- Timely despatch of data
- Outputs difficult to interpret
- Valuable information was being under-utilised

Benefits of using Data Vis

- No need for substantial reports
- Less time building spread sheets
- Simple drill-down functionality
- Much more targeted outputs
- Much more precise thematic analysis and interpretation
- Deliberate use of visual cues
- Faster turn around
- Self service (when we get it)
- Journey

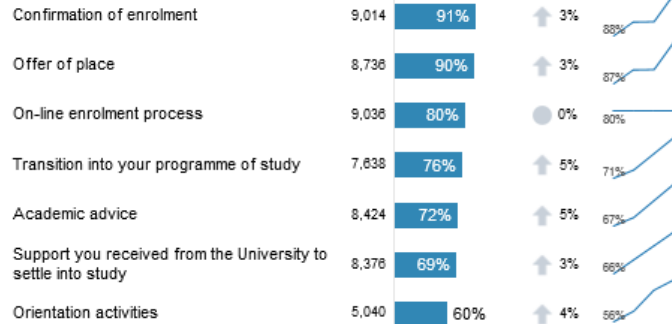

Started with power pivot (2013)

Programme: (All) | Major: (All) | College: (All) | Survey year: 2016
 Campus: (All) | Study mode: (All) | Primary Study Location: (All) | NZ Maori: (All) | Pasifika: (All) | International student: (All) | New / Returning: (All) | Gender: (All) | Age Group: (All) | Programme Level: (All)

Overall experience

How would you rate:

To what extent did you feel:

Lecturers, Tutors and demonstrators:

Overall quality

How would you rate:

Delivery of papers:

To what extent has your experience at university developed your Skills

	No. of Respondents	No. sent survey	Response rate
	9,507	27,769	34%
	NZ Maori	Pasifika	International
	1,007	489	1,106
	BLK	DIS	INT
	700	4,327	4,480
	Albany	Manawatu	Wellington
	2,359	5,736	1,412

Seriously considered leaving

1439 out of 8,784 ■ 16% ▲ -2%

- REASONS (select as many as apply)

■ Good, Very good | Quite a bit, A great deal

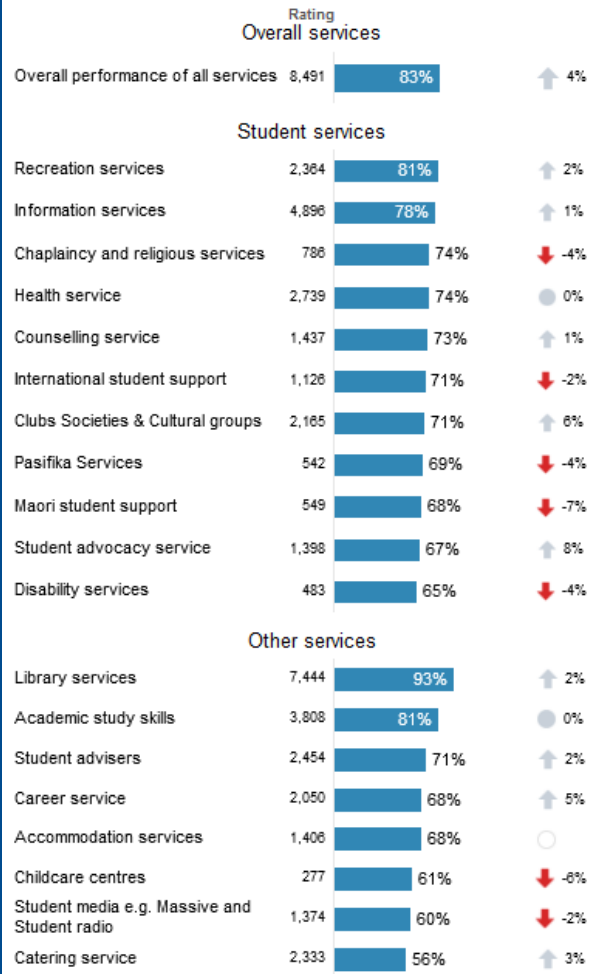

↑ ↓ % difference of the combined Good/Very good or Quite a bit/A great deal ratings between 2013 and 2016.

Respondents were asked to rate: Very poor/Poor/Average/Good/Very good/Don't know/Not applicable to me or tell us the extent: Not at all/Very little/Somewhat/Quite a bit/A great deal/Don't know. Don't know/Not applicable to me or blank responses are excluded. Very poor/Poor/Average or Not at all/Very little/Somewhat ratings are included in the item response count. For more information about this viz., contact the developer: J.Naylor@massey.ac.nz | Student Survey and Evaluation Unit

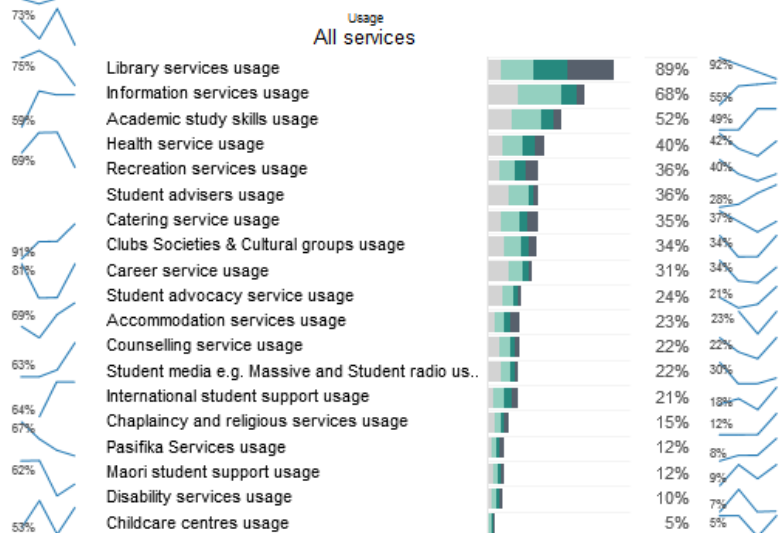

2016 Student Experience Survey

Programme: (All) Major: (All) College: (All) Survey Year: 2016
 Campus: (All) Study mode: (All) Primary Study Location: (All) NZ Maori: (All) Pasifika: (All) International student: (All) New / Returning: (All) Gender: (All) Age Group: (All) Programme Level: (All)

	No. of Respondents	No. sent survey	Response rate
	9,507	27,769	34%
	NZ Maori	Pasifika	International
	1,007	489	1,106
	BLK	DIS	INT
	700	4,327	4,480
	Albany	Manawatu	Wellington
	2,359	5,736	1,412

↑ ↓ % difference of the combined Good/Very good or Quite a bit/A great deal ratings between 2013 and 2016.
 Respondents were asked to rate: Very poor/Poor/Average/Good/Very good/Don't know/Not applicable to me. Don't know, Not applicable to me or blank responses are excluded. Very poor/Poor/Average ratings are included in the item response count.
 Response scales for service usage were: Never/Rarely/ Sometimes/Quite often/ Very often/Not familiar with this service/Not applicable to me. Never/Rarely responses are included in total %. Not familiar with this service/ Not applicable to me or blank responses are excluded.

2013

2014

Overall quality

How would you rate:

Category	Count	Change	Target	Score
Your entire educational experience	7,221	0%	3%	81%
The teaching you have received	7,477	0%	4%	79%
The on-line learning environment	7,389	-2%	6%	72%

2015

Overall quality

How would you rate:

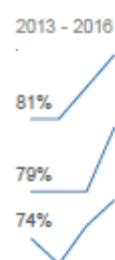

Category	Count	Change	Target	Score	Change
Your entire educational experience	9,411	3%	82%	82%	1%
The teaching you have received	9,403	5%	79%	79%	0%
The on-line learning environment	9,360	5%	75%	75%	3%

2016

Overall quality

How would you rate:

Category	Count	Score	Change	2013 - 2016
Your entire educational experience	8,790	83%	2%	81%
The teaching you have received	8,892	81%	2%	79%
The on-line learning environment	8,868	77%	3%	74%

Data utility

Last year we distributed just over 250 views of the data (both quant and qual)

- Whole new way of constructing data visuals
- Requires new understanding of the science behind the design
- Keeping it simple
- Engage with data users
- Style of visual matures over time
- Journey

Reporting

- Modest Executive Summaries
- Share point blog
- Quant dashboards (via Tableau) drilling - down by any SMS metrics
- Precisely coded qual comments (via NVivo) for standalone analysis and reporting
- Targeted mixed methods styled thematic reporting

Data Utility

- Contributing to numerous programme reviews. Some initiated directly from the survey results
- Used for staff professional development
- Inform way we provide various services:
 - Careers Service
 - Disability Service (mainly qual data)
 - International student support
 - Library
- Contributed to the University employability strategy

Data Utility

- Improve support for PhDs via PREQ
- Contributed data to AACSB and other accreditations (n=40)
- BA redesign data
- Rec Centre business case data
- Improvements to Learning Management System
- Helping inform communication processes
- Evaluate printed materials process
- Recommended a focus on Academic Advice

The future

- Self-service for all staff (licencing issues)
- Business case for data vis application
- Selected interactivity for students ? via Tableau Public
- Benchmarking
- Integrate with other University datasets
- More in-depth thematic reporting
- Start working on 2017 earlier
- Changing the survey frequency?

For 2017

2013	2014	2015	2016	2017
Library	PREQ	PREQ	PREQ	Learner engagement
ITS	Employability	Employability	Recreation Centres	Academic advice
Spaces	Disability	Disability	Smoke-free policy	ISB follow up
Paper Information	Website	International		Pre-entry block
Careers Service	Course evaluations			Students Assn block or BA redesign
